Hi Chris – Thanks for flagging the last comment re: BRAG and risk assessments – I’m checking internally and will get back on this later tonight/tomorrow.

Thanks!
Ritu

Attached are some suggested edits from EPA-OPP. Please note the last sentence on the page indicating impact from BRAG on EPA risk assessments; if APHIS or FDA feel the same, the sentence can be altered to include other agencies.

Thanks
Chris

I made the changes requested by Ritu regarding the comments that were attributed to FDA but should be attributed to USDA. Regarding the public participation we are fine to have it attributed solely to USDA. Carolina, I also think you did an excellent job in pulling this together quickly and effectively. Many thanks,. Neil

Hi Carolina – Thanks for pulling this together so nicely.

I’ve added my edits in attached. In a couple of places where you listed items as FDA comment, I think those are from USDA but you’ll have to double check and fix – I flagged those for you.

I also flagged one item re: Oxitec mosquito for EPA, and responded to USDA's comment about public participation.

I'm available for any further back-forth. I'll keep an eye on bb and can log in, as needed, later today.

Thanks!

Ritu

Subject: NASEM Report - Future of Biotechnology Compiled ERRATA comments

Hello everyone.

Attached is a copy of the compiled comments/suggestions for corrections in the report. It is only being mailed to the immediate drafting group (if I missed someone and/or you wish to share it with others feel free).

As agreed they are compiled in page order. I divided them into columns and tried to emphasize the suggestions (and changes when possible).

I only have one specific question that FDA and EPA needs to consider based on a comment from USDA on public consultation, and I highlighted it, so you can easily find it.

I am in Paris thru Friday and thus 6 hours ahead. If possible I will work on any comments received late today; otherwise everyone will have a final copy by Friday. I will let Bryan know we will get the comments to him by Friday.

All the best.

Carolina Penalva-Arana
